Company Projects

Ametnes Cloud :

"Ametnes Cloud" is a comprehensive web application built using React and Gatsby, designed to offer a wide range of cloud services.

Fandrum :

"Fandrum" is an online platform that brings people together around a common passion. It's like Quora for TV shows. The main aim is to provide a place to discuss your favorite shows. You can create "Fan communities" ,movie or even celebrities.

Alt-Radar :

"Alt Radar" is a web application developed entirely in React.js, designed to connect artists and listeners in a music sharing platform. Artists can upload their songs while listeners can listen to these songs.
